PROFESSIONAL SUMMARY

Second Year B.Sc. Computer Science student at Mithibai College, Mumbai, with a strong interest in Full-Stack Web Development and Software Engineering. Experienced in building responsive, database-driven web applications using modern technologies and deploying them to production environments. Passionate about solving real-world problems through technology, continuously learning new tools, and creating impactful software projects.

EXPERIENCE

Freelance Full-Stack Web Developer | Elios Wholesale

May 2026 – Jun 2026

- Developed a production-ready B2B wholesale platform from scratch — REST APIs, authentication, and database architecture for products, suppliers, orders, payments, and multi-role access.
- Deployed to production; optimized database queries and API response times; conducted a comprehensive technical audit for performance, security, reliability, and scalability.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Node.js, Express.js, Prisma ORM, PostgreSQL, Supabase, Git, GitHub, Vercel, Render, Hostinger

PROJECTS

Elios Wholesale Platform

June 2026

- Built a full-stack B2B wholesale platform (products, suppliers, orders, payments, role-based auth); performed a technical audit resolving security vulnerabilities and optimized backend APIs and database queries for performance.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Node.js, Express.js, Prisma ORM, PostgreSQL, Supabase, Vercel, Render, Hostinger

AI Multiplayer Quiz Battle

March 2026

- Developed and deployed an AI-powered 2-player quiz battle web app with real-time question generation via Groq AI API, live at quiz-battle-ai.onrender.com.
- Built a Python Flask backend with CORS handling, seamless API integration, and responsive UI for an engaging multiplayer experience. Deployed on Render with full cloud configuration.

Tech Stack: HTML, CSS, JavaScript, Python Flask, PHP, Groq AI API, Git, GitHub, Render

Learning Projects

March 2026

Tic Tac Toe Game

- Developed a responsive Tic Tac Toe game to strengthen JavaScript logic, DOM manipulation, and event handling. Implemented game state management, winner detection, draw conditions, and restart functionality.

Tech Stack: HTML, CSS, JavaScript

Rock Paper Scissors Game

- Built an interactive Rock Paper Scissors game with score tracking, animations, and computer-generated moves. Improved understanding of JavaScript functions, conditional logic, randomization, and UI interactions.

Tech Stack: HTML, CSS, JavaScript
